

## Flower Push Pins of Oyster Shell (Assorted colors)

da: Cohana

Modello: KITMIL-COH45-108

Mother-of-pearl buttons with an attractive shiny gloss and unique rainbow-colored sparkle. Flower motifs are cut from oyster shells, which are famous for nurturing pearls. They are combined with delicate golden pins made in Hiroshima, known for producing fine needles, to make these push pins. Just push them into a cork board or the wall and they look just like cute little flowers blooming. The polished tips of the needles shine with the skill honed by craftsmen over many years. The push pins are developed with four traditional Japanese color dyes, white that highlights the shell's natural brilliance, and all the colors combined in assorted colors. Set of 5 pins

## Sewing Needle Set for Heavy-Weight Cloth

da: Cohana

Modello: KITMIL-COH45-46

"Meboso Needles" has a history of more than 430 years, and has been loved by seamstresses in Kanazawa.

The most unique characteristic of the "Meboso Needles" is its ability to pierce with little contact with the fabric, made possible because of its vertically polished surface. By adding an extra touch to these delicate needles, they have been made to smoothly slide through the fabric. The needle was an important work tool for these seamstresses, and it is said that they cherished their needles by enveloping them in hand-sewn bags or placing them in a container which hung from their necks, so that they wouldn't get lost. Their story has inspired us to place extra consideration into choosing a packaging for these needles. We decided to use containers created by Aichi Shikan Seizosho, a company which has produced many paper tube spools. We then attached tassels, made with manufacturer Kanagawa's silk and gold threads.

**Price: € 11.95** (incl. VAT)

## Ohajiki Sewing Pins and Pincushion Necklace

da: Cohana

Modello: KITMIL-COH45-196

A set of Ohajiki Sewing Pins and Cypress Pincushion Necklace in SAKURA pink. The Ohajiki name given to the sewing pins refers to a traditional Japanese marble game, often played with glass or plastic marbled discs; their glass bead heads have distinctive delicate patterns with gentle colors that will bring a delightful feel of spring.

As for the Sakura pincushion, its small size makes it easy to bring along on travels as it can be worn as a necklace while working, thanks to the leather tag and cord. The round bottom part is made from cypress wood, while the cushion is filled with polyester and covered with beautiful smooth, pink silk that is quite comfy to prick with pins. The fragrant wood is sourced from hinoki cypress from the Kii Mountains.

Ohajiki Sewing Pins Length 37mm

Cypress Pincushion Diameter 3,3cm, Height 3,5cm

**Price: € 48.50** (incl. VAT)

## Iida Mizuhiki Sewing Pins

da: Cohana

Modello: KITDBR-COH45-194

Three sewing pins topped with an adorable handmade Mizuhiki decoration called Awaji-dama. Mizuhiki is a decorative paper cord created by twisting washi paper and hardening with glue coating. In Japan Mizuhiki is essential for formal gifts. Japan has a custom to use Mizuhiki on gifts for loved ones. There are many ways to express the feelings of the gift-sender with the choice of color, numbers and how they are tied for the different type of occasions. In addition to the indication of unopened status, tying the Mizuhiki has a meaning of prayer. The knot is tight and cannot be untied easily, so it symbolizes to connect people with each other and with their hearts. Iida Mizuhiki has been handed down as a traditional handcraft for generations in Nagano Prefecture. Mizuhiki decoration called Awaji-dama is used to make a top of Cohana's sewing pin. The durable steel-and-nickel pins are manufactured in Hiroshima, a city with a 300-year history of high-quality needle production. Rigorous quality control ensures that pins are of uniform thickness and length and pierce cloth with ease.

## Kawara - Magentic Needle Rest - Yellow

da: Cohana

Modello: KITMIL-COH45-258

This gorgeous magnetic needle rest with needle polisher by Cohana is a wonderful addition to your handicraft kit. It is completely handcrafted: it is made from ceramic and is decorated with a flower motif according to the Awaji Kawara tradition of ceramic roof tiles dating back to the 17th century. Each needle rest is entirely unique: the richness of the soil and the colours of the glaze make each piece one of a kind.

Next to its uniqueness and wonderful history, this product is also extremely functional. Not only will it keep all your needles safe while you are working, thanks to the built-in magnet, but it will also be a handy tool to have to polish and sharpen your needles. In fact, polished needles perform significantly better when working with all sorts of fabrics. In order to use the polisher, simply insert a needle of your choice into the hole on the side of the needle rest and slowly pull the needle out while pushing up on the bottom part. The needle rest has a diameter of 40mm and is 17mm high. The Japanese brand Cohana offers products where quality, functionality and design are of utmost importance. All their items are produced in a traditional way in collaboration with the best companies in the country from as many sustainable materials and raw materials as possible.
