APLIQUICK®™ Rods

da: Apliquick

Modello: ACCAPQU-APQ2

Appliques tools, consisting in two rods, a thicker and a thinner, with different ends. Developed tools for having perfect, fast and easy results both in patchwork traditional applique and in Japanese miniature applique. They are suitable for larger, medium and essential for thumbnails workpieces. The pronged tool is used to steady the appliqué shape while the other, which has shaped end, is used to turn the edge of the fabric over to the side and press in place.
