

## Dyeing wool with plants Kit - Madder Red

da: Arvier

Modello: KITARVIER-ROSSO

You can now live the amazing experience of turning a raw wool skein into a beautiful yarn into your own home. Bright shades, pastel tones and all the colors of the rainbow to fill your life. It's a whole new concept of knitting work that will stimulate your creativity. The products used to dye are all natural elements such as minerals, plants, herbs. This type of dyeing doesn't pollute and the residues can be easily discharged with waste water or compost. Threads or fibers can be recycled or reused.

So here is a starter kit with all you need to get to know this amazing technique and learn the ABC's of natural wool dyeing. Kit includes:

- One raw wool skein of 100gr (enough to make a neck warmer)
  - One bag of alum (20gr)
  - One bag of cream of tartar (6gr)
  - One bag of plant dye (100 gr)
- Instructions in Italian

**Price: € 15.00** (incl. VAT)

Kits - Knitting and Crocheting Kits
