Brise-bises en broderie sur filet noué

da: Udam

Modello: LIBFR-9782378170240

This technique, greatly prized for the decoration of curtains, cushions and wall hangings was established in Haute-Saône during the sixteenth century at the same time as the bobbin; then, because of mechanization it was almost completely forgotten in the 1970s.

Discover the history behind this technique, the needed materials needed and much more. Learn how to create different types of filet lace projects (there are more than 20 designs inside to choose from) with the help of the author who will guide you through all the steps.
