Hand-sewing Needles between, with gold eye

da: Prym

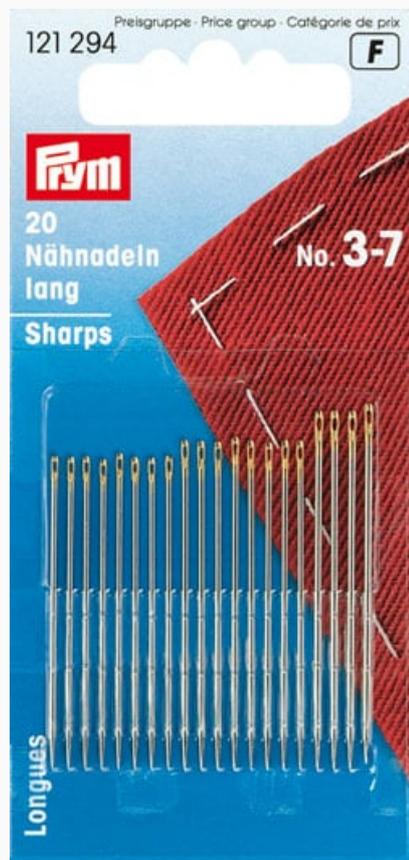

Modello: ACCPRYM-121305

Uniformly polished, non-porous and refined surfaces guarantee excellent smoothness and good protection against rust. The precision calculated and controlled spring resilience of the needle ensures smooth sewing without bending or breaking. For each material application, there is the optimal point. For normal sewing work the point is long and especially slender. Needle gauge is indicated by a number. The higher this number, the finer the needle. For each type, the length of the needle and the size of its eye are adapted to the diameter of its shaft or the gauge. Package of 20 needles from 3 to 7.

Price: € 1.95 (incl. VAT)

Hand-sewing Needles sharps, with gold eye

da: Prym

Punch Needle

da: Pym

Modello: ACCPRYM-611708

Needle punching is all the rage – the punch needle provides a simple way for everyone, including beginners, to achieve a 3D effect in their embroidery. Thanks to the three needle sets in various gauges the punch needle is suitable for use with the desired thread or yarn thickness and various fabrics and embroidery canvases. The finest needle point 1.3 mm is suitable for max. three-ply embroidery thread (thread thickness 0-1), the medium-sized needle point 1.6 mm for max. four-ply embroidery thread (thread thickness 1-2) and the thickest needle point 2.2 mm for six-ply embroidery thread and fine woolen yarn (yarn thickness 2-4, e.g. wool for socks). Each graduation scale on the needle allows you to select the exact depth of the stitch or length of the loop you want and by adjusting the scale you produce almost automatically the three-dimensional surfaces. The handle, with its soft surface, sits comfortably in your hand, so that creating small and fine upcycling projects and more elaborate decorative items becomes an effortless pleasure. The most effective way of securing the reverse side of the embroidered picture is to use textile glue. The pack contains the punch needle, three needle points, one threader and a booklet of detailed instructions. The point protectors, which are also provided, guarantee safe storage of the needle points.

Price: € 17.40 (incl. VAT)
