Corner and edge shaper - Love

da: Prym

Modello: ACCPRYM-610192

The plum blue corner and edge shaper, with its asymmetrical tops and the rounded blunt tip, enables the moulding of turned over corners, edges and curves without damaging the fabric. Unlike knives or scissors which are often used for this purpose, this tool from Prym has no sharp edges but rather a rounded tip, making it the perfect moulding aid when sewing cases, small bags and much more. In addition, the corner and edge shaper is also suitable for spreading out seams without ironing. Even for handicrafts, the corner and edge shaper can easily fold felt, paper or cardboard.

Love, Melon Pin Cushion

da: Prym

Modello: ACCPRYM-610330

Two-in-one use - twice as useful: this pretty needlework accessory from the Prym Love collection is on the one hand useful as a decorative pin cushion in every sewing corner and on the other is ideal for use as a fixing weight for the next sewing project. Fabrics and sewing patterns can be easily positioned on the cutting mat and cut out with the rotary cutter. Even thin pattern paper and delicate fabrics are held in place without any problem. With its soft, crocheted surface the fixing weight leaves no pressure marks and therefore protects the fabric to be cut out. This makes good sense especially with very fine materials, but it is also useful for textiles made from oilcloth or soft shell fabrics, on which pins would leave holes. Dimensions: 6cm

Price: € 11.20 (incl. VAT)

Aquatrick marking and water pen

da: Prym

Modello: ACCPRYM-610806

A combination which provides the perfect solution: the water-erasable markings of the aqua trick marker and the water pen now make it easy to trace and remove lines by hand when embroidering, dressmaking, doing patchwork and quilting.

The aqua trick marker is particularly suitable for removing markings on fabrics when the lines traced are intended to be invisible later on. It should be stored cap downwards, to prevent it from drying out. The markings must be accurately removed and left without a trace before ironing. Also short-term markings can be transferred: the water pen is filled with water and its damp brush-tip produces exact lines on the fabric. In addition, if you fill it with a mixture of water and stain remover, the water pen effortlessly removes stains.

Needle Threader for sewing machines with magnet

da: Prym

Modello: ACCPRYM-611126

There are many little things that can make sewing a lot easier. This also includes this practical needle threader for the sewing machine with its three functions: a needle holder, the needle threader and a practical magnet. Its ingenious mechanism supports the otherwise laborious threading of the thread into the sewing machine needle. Success here is quick and easy in simple steps, because a fine metal mandrel pushes the thread very easily through the filigree eye via a spring action. Finally, using the hook on the front of the thread guide, pull the thread completely through the eye: the sewing fun can begin. In addition, the threader also assists in inserting the needle into the sewing machine with the help of the needle holder. Simply place the needle with the point downwards and the piston upwards in the holder and easily insert it into the designated place for the sewing machine. An integrated magnet supports, for example, grabbing the needle from the table.

Wool bobbins small, assorted colours

da: Prym

Modello: ACCPRYM-611867

Prym's wool bobbins ensure clear work while knitting complicated patterns or when storing leftover wool. Small quantities of wool can be comfortably and practically rolled up onto the small bobbins made of stable plastic. This fully prevents the wool threads from becoming tangled and knotted, making this aid indispensable in neutral colours when knitting or crocheting. The top part of the bobbin contains a groove, in which the end of the wool thread can get wedged to secure the yarn.
