

## Ball point needles #34

da: CasaCenina

Modello: KITCCEN-52248-034

A set of needles with a special ball point, ideal for all counted stitching (cross stitch, hardanger and so on) and for drawn-thread stitching that, differently from sewing, do not require pointed needles. The little sphere on their end opposite to the eye ensures the safest action on any needlework fabric, without risking to accidentally split the threads in the weft. Moreover, gently and very lightly enlarging the holes of the weave, it minimizes the friction of the stitching floss against the fabric, protecting it from fraying.

5 piece packaging, size 28 - 34 mm.

Made in Czech Republic

**Price: € 10.20** (incl. VAT)

## Ball point needles #37

da: CasaCenina

Modello: KITCCEN-52248-037

A set of needles with a special ball point, ideal for all counted stitching (cross stitch, hardanger and so on) and for drawn-thread stitching that, differently from sewing, do not require pointed needles. The little sphere on their end opposite to the eye ensures the safest action on any needlework fabric, without risking to accidentally split the threads in the weft. Moreover, gently and very lightly enlarging the holes of the weave, it minimizes the friction of the stitching floss against the fabric, protecting it from fraying.

5 piece packaging, size 26 - 37 mm.

Made in Czech Republic

**Price: € 10.20** (incl. VAT)

## Ball point needles #40

da: CasaCenina

Modello: KITCCEN-52248-040

A set of needles with a special ball point, ideal for all counted stitching (cross stitch, hardanger and so on) and for drawn-thread stitching that, differently from sewing, do not require pointed needles. ## Iris Swiss Super Fine Pins

da: CasaCenina

Modello: ACCCEN-1706

Made in Switzerland, these extra long hardened steel pins are nickel-plated with super sharp points. Especially good for all fine fibers. They won't leave holes or bend out of shape and are reusable.

**Price: € 17.63** (incl. VAT)

## Casa Cenina collector's needle nanny

da: CasaCenina

Modello: KITCEN-NEEDLENANNY

Featuring two strong magnets and printed with a detail of Renoir's painting "Young Woman Sewing" (1879), that has been the symbol of our "Embroidery Festival" since 2007, this "dot" isn't simply lovely, but, most of all, convenient, to be used on the fabric you're stitching, where it stays firmly, always ready to "welcome" your needles and needlework scissors, thanks to its removable magnet, underneath its printed surface. No more "desperately looking for" our needles and little scissors! Thanks to its printed side, you can use it virtually everywhere, even to give an unusual touch to your hats, scarves, coats, jackets, bags and anywhere else you may like. Like all needle minders, because of its strong magnets, it should never be used or worn near a pacemaker.  
Diameter: 3 cm approx.

**Price: € 6.50** (incl. VAT)
