Net contents 2oz (59ml).

**Price: € 7.15** (incl. VAT)

## Wool dryer balls

da: CasaCenina

Modello: KITCCEN-WOOL-DRYER-BALL

Made of pure wool from New Zealand sheep, these balls have a 7-cm diameter and come in a convenient, pure cotton bag with our logo! Why choosing them? If you use the dryer, these balls can cut its drying time down to 40%, thus allowing you to spare time and power, with a subsequent positive effect on the environment. Moreover, they minimize static cling, preventing hair and dust from clinging to your clothes. Last but not least, they limit the wrinkles on your clothing, because they prevent it from twisting in the dryer, helping fibers to stretch out during drying. They can be used for several drying cycles.

**Price: € 16.99** (incl. VAT)

## Premium Clear Vinyl 16 Gauge

da: CasaCenina

Modello: ACCCEN-SUP15116

Sturdy, yet flexible, this premium 16-gauge vinyl is 54 wide and double polished for maximum clarity. Perfect for see-through pockets or windows in organizers, bins, purses and bags, wallets, and more. The vinyl is moisture resistant. Wipe clean with a cloth or machine wash and dry on medium heat. Remove from dryer promptly and lay it flat to cool it down. The vinyl is packaged on a roll, which prevents wrinkles and folds and makes it very manageable and easy to use. A white paper backing clings to the vinyl so it is extra-easy to see the edges of the vinyl when cutting. Just leave the paper attached until you are ready to sew. The paper may be easily peeled away and used to prevent the vinyl from sticking to the sewing machine table.

This package contains 54x16 inches of 16 gauge vinyl on a roll.
