## Small Wooden Easel

da: DMC

Modello: ACCDMC-U1991

The decorative trend is embroidery frames! Pretty embroidery in its wooden and/or colored frame is the finishing touch to decorate a cozy and warm room. This trend fits all decorations because the possibilities are endless! Christmas embroidery during the holiday season, colorful embroidery in the spring or minimalist embroidery--the choice is yours.

Once your embroidery has been chosen and made, you can't leave it lying on a piece of furniture, teetering between a vase and a book. No no no! Your creation deserves to be highlighted.

DMC has developed these mini wooden easels that will be the perfect accessory to showcase your adorable creations. Made of wood and with an understated design, they will not steal the spotlight from your embroidery but will enhance it in a discreet and elegant way. All you have to do is place your embroidery frame on it and choose the angle of your easel with the screw located on the top of the stand. Then choose the perfect place to put your stand and voila!

Size about 18 cm. x 23 cm.

**Price: € 6.73** (incl. VAT)
