## Waste White Canvas 14ct. White

da: DMC

Modello: STODMC-DT214

Waste canvas is designed to be used as a temporary foundation for fabric-type grounds that are unsuitable for counted stitches. It is a lightweight, double thread canvas and can sometimes be identified by the evenly spaced dark blue warp threads running parallel to the selvage. It is meant to be temporarily attached to the ground fabric and is worked by stitching through both layers. When the stitching is completed, the item is moistened to remove the waste canvas threads.

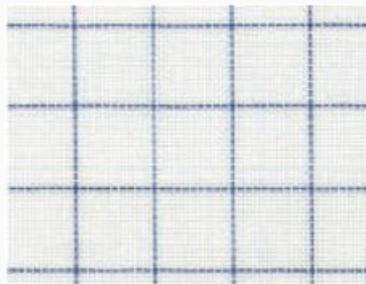

Price is for a cut of 50x50cm.

**Price: € 4.12** (incl. VAT)
