

Threads & Yarns - ThreadworX - Hand Overdyed Metallic #12

ThreadworX Hand Overdyed Metallic #12 - 91015 - Ice Blue

da: ThreadworX

Modello: FILTWX-K12-91015

Hand Overdyed Metallic fine braid (#12): Use Tapestry (#12) Braid from ThreadworX (artisan dyed from tapestry Kreinik #12) in Cross Stitch (11ct), Needlepoint (18-30ct), Crochet, as a companion yarn for Knitting designs, and for embellishments in Scrapbooking & Card Making. 10mt.

Although ThreadworX products are carefully dyed to be colorfast, environmental issues have eliminated certain chemicals that ensure this process. Therefore it is important to launder any project with dark colors very carefully. We seldom have a problem with our colors running but we cannot guarantee complete colorfastness. Specialty threads must be treated gently! The threads must first be unskined, put into a bathroom basin 1/2 filled with cold water with 2 tbs. table salt and 2 tbs. vinegar. Soak for 2-3 minutes, remove, blot with towel and let dry. This is recommended for any piece that will require washing. Please Note: HOT WATER and using a STEAM IRON and/or a damp cloth when pressing completed project will reactivate dyes and cause bleeding. If your work has been completed and the dyes have bled in washing then you must soak the piece in ICE WATER until the color starts to bleed out. Remove from the water and run an ice cube over the problem area and then place back in fresh ice water to soak again. Repeat this process until the problem area is clear of dye. This may take continued effort, possibly over a few days, but it does work!

Expected restocking from Friday 30 September, 2022.

Price: € 10.45 (incl. VAT)

Threads & Yarns - ThreadworX - Hand Overdyed Metallic #12

Specialty threads must be treated gently! The threads must first be unskined, put into a bathroom basin 1/2 filled with cold water with 2 tbs. table salt and 2 tbs. vinegar. Soak for 2-3 minutes, remove, blot with towel and let dry. This is recommended for any piece that will require washing. Please Note: HOT WATER and using a STEAM IRON and/or a damp cloth when pressing completed project will reactivate dyes and cause bleeding. If your work has been completed and the dyes have bled in washing then you must soak the piece in ICE WATER until the color starts to bleed out. Remove from the water and run an ice cube over the problem area and then place back in fresh ice water to soak again. Repeat this process until the problem area is clear of dye. This may take continued effort, possibly over a few days, but it does work!

Expected restocking from Friday 30 September, 2022.

Price: € 10.45 (incl. VAT)

Threads & Yarns - ThreadworX - Hand Overdyed Metallic #12

ThreadworX Hand Overdyed Metallic #12 - 91077 - Pottery

da: ThreadworX

Modello: FILTWX-K12-91077

Hand Overdyed Metallic fine braid (#12): Use Tapestry (#12) Braid from ThreadworX (artisan dyed from tapestry Kreinik #12) in Cross Stitch (11ct), Needlepoint (18-30ct), Crochet, as a companion yarn for Knitting designs, and for embellishments in Scrapbooking & Card Making. 10mt.

Although ThreadworX products are carefully dyed to be colorfast, environmental issues have eliminated certain chemicals that ensure this process. Therefore it is important to launder any project with dark colors very carefully. We seldom have a problem with our colors running but we cannot guarantee complete colorfastness. Specialty threads must be treated gently! The threads must first be unskined, put into a bathroom basin 1/2 filled with cold water with 2 tbs. table salt and 2 tbs. vinegar. Soak for 2-3 minutes, remove, blot with towel and let dry. This is recommended for any piece that will require washing. da: ThreadworX

Modello: FILTWX-K12-91154

Hand Overdyed Metallic fine braid (#12): Use Tapestry (#12) Braid from ThreadworX (artisan dyed from tapestry Kreinik #12) in Cross Stitch (11ct), Needlepoint (18-30ct), Crochet, as a companion yarn for Knitting designs, and for embellishments in Scrapbooking & Card Making. 10mt.

Although ThreadworX products are carefully dyed to be colorfast, environmental issues have eliminated certain chemicals that ensure this process. Therefore it is important to launder any project with dark colors very carefully. We seldom have a problem with our colors running but we cannot guarantee complete colorfastness. Specialty threads must be treated gently! The threads must first be unskined, put into a bathroom basin 1/2 filled with cold water with 2 tbs. table salt and 2 tbs. vinegar. Soak for 2-3 minutes, remove, blot with towel and let dry. This is recommended for any piece that will require washing. Please Note: HOT WATER and using a STEAM IRON and/or a damp cloth when pressing completed project will reactivate dyes and cause bleeding. If your work has been completed and the dyes have bled in washing then you must soak the piece in ICE WATER until the color starts to bleed out. Remove from the water and run an ice cube over the problem area and then place back in fresh ice water to soak again. Repeat this process until the problem area is clear of dye. This may take continued effort, possibly over a few days, but it does work!

Expected restocking from Friday 30 September, 2022.

Price: € 10.45 (incl. VAT)

Threads & Yarns - ThreadworX - Hand Overdyed Metallic #12

Soak for 2-3 minutes, remove, blot with towel and let dry. This is recommended for any piece that will require washing. Please Note: HOT WATER and using a STEAM IRON and/or a damp cloth when pressing completed project will reactivate dyes and cause bleeding. If your work has been completed and the dyes have bled in washing then you must soak the piece in ICE WATER until the color starts to bleed out. Remove from the water and run an ice cube over the problem area and then place back in fresh ice water to soak again. Repeat this process until the problem area is clear of dye. This may take continued effort, possibly over a few days, but it does work!

Expected restocking from Friday 30 September, 2022.

Price: € 10.45 (incl. VAT)

Threads & Yarns - ThreadworX - Hand Overdyed Metallic #12

ThreadworX Hand Overdyed Metallic #12 - 910180 Cinderella's Gown

da: ThreadworX

Modello: FILTWX-K12-910180

Hand Overdyed Metallic fine braid (#12): Use Tapestry (#12) Braid from ThreadworX (artisan dyed from tapestry Kreinik #12) in Cross Stitch (11ct), Needlepoint (18-30ct), Crochet, as a companion yarn for Knitting designs, and for embellishments in Scrapbooking & Card Making. 10mt.

Although ThreadworX products are carefully dyed to be colorfast, environmental issues have eliminated certain chemicals that ensure this process. Therefore it is important to launder any project with dark colors very carefully. We seldom have a problem with our colors running but we cannot guarantee complete colorfastness. Specialty threads must be treated gently! The threads must first be unskined, put into a bathroom basin 1/2 filled with cold water with 2 tbs. table salt and 2 tbs. vinegar. Soak for 2-3 minutes, remove, blot with towel and let dry. This is recommended for any piece that will require washing. Please Note: HOT WATER and using a STEAM IRON and/or a damp cloth when pressing completed project will reactivate dyes and cause bleeding. If your work has been completed and the dyes have bled in washing then you must soak the piece in ICE WATER until the color starts to bleed out.
