Casa da Sogno n. 38

A dive into the the classiest shabby style, dedicated to the unique charm of this furniture's style. The power of a style is in more causes: how it remains impressed in collective imagination, the way which it contributes to renew or to transform the room or the house that it stars in; the power of the past history, of single feelings and emotions. Because shabby chic often means recycling, family, antique, hand-made. All these values and aspects make it unique and personal. We will take you to Kathleen Beyer's house, in Oregon, for a dip in the most authentic shabby style, to then pass on to the french vintage of Sigrig Kusirek in Vienna and her laces. In this edition, you will also find an exclusive Gustavien-style room by Marzia Sofia Salvestrini, a vintage-industrial cottage by the beach, bon ton advices, a vintage tea break and ... all of our passion for home decoration!
