Colored Flat Flower Pins - 50 pieces

da: Dritz

Modello: ACCDRITZ-3069-086757

Pins are ideal for a variety of uses. Brightly colored heads are easy to see and grasp and may be ironed over safely. Quilters like them for holding stacks of fabric together with rotary cutting. The pins lay flat under an acrylic ruler and keep the fabric layers from shifting. Sewers find the longer length convenient when working with polar fleece and decorator fabric and for conventional sewing and serging. The heads will not slip through openings in lace and loosely woven knits and will also work well for pin weaving. Package of 50 pins.
