Spray and Fix Temporary Fabric Adhesive 500ml.

da: Odif

Modello: ACCODIF-17-505500

Temporary, repositionable, fabric adhesive used to temporarily bond fabric. Odorless, colorless, no mist, does not gum sewing needles. Use for machine applique, quilting, basting, holding fabric to stabilizers in machine embroidery and hemming. Acid Free!

The perfect positioning spray. Instead of using needles or tags for fixing several layers of fabric and/or fleece and/or paper you can use 505. Just applicate 505 on the fabric and put the next layer on it. For more layers repeat this process. Now you can sew them together. 505 can be washed out without leaving any residue and is non pollutant and eco friendly.

Please apply very sparingly!
